

Model Feature

Citroën DS3

Launching in 2009, the Citroën DS3 has been a runaway success with distinctive looks, an upmarket interior and entertaining driving experience at the heart of its appeal.

Comline's friction offering for the DS3 includes brake discs that are within our Top-25 best selling numbers and brake pads that feature the innovative RMR backing shim designed to reduce noise and eliminate brake squeal.

Like all Comline products, our range for the Citroën DS3 is backed by our commitment to quality and our always competitive pricing. With tens of thousands of examples of this stylish supermini on our roads, make sure you're well stocked with Comline.
