

# Model Feature

## Dacia Duster

With wintry conditions continuing to prowl across the continent, a cheap and cheerful SUV seems the ideal vehicle in which to keep moving and battle the snow and ice. Enter Dacia with one of the most affordable SUVs available on the market – the curiously named ‘Duster’.

A likeable, no-frills SUV with bags of room and a low-price tag, it's no surprise that the Duster has cleaned up significant European market share from under the noses of its competitors; the Nissan Qashqai, Skoda Yeti and Suzuki Vitara to name but a few.

To keep the Duster in perfect condition, Comline offers a comprehensive range of high quality, value-for-money parts for the model, including the most prevalent 1.5-litre diesel variant. Like the Duster, Comline is a growing force across Europe and our replacement parts are designed to deliver lucrative results for your business.
