

# Model Feature

## Jaguar XF

The British-made Jaguar XF first appeared back in 2007 and marked the first of a new breed of Jaguar models. XF quickly became a serious contender within the executive car class.

The XF combines style, class, power with an engaging drive and its premium feel has seen the model make a serious impression on its competition, including the BMW 5 Series, Mercedes E Class and Audi A6.

To help 'the Jag' retain its premium feel, Comline offers a comprehensive range of products for the XF across Filters, Braking, Steering & Suspension and Engine & Cooling.

With a growing reputation as one of the fastest growing automotive brands in Europe, Comline delivers high-quality and genuine value-for-money across its product range. There's little doubt that Comline will deliver lucrative results for your business.

For more details on our XF range please visit the Comline website or contact our sales team on **01582 578 888**.
