

# Model Feature

## MINI Countryman

**The MINI Countryman is the largest model in the MINI family and offers all the benefits you'd expect of the much-loved, retro-inspired hatchback but with plenty of room and practicality for everyday family use.**

The compact SUV rivals the likes of Mercedes-Benz GLA, Audi Q2 and the Nissan Juke and now offers the option of a plug-in hybrid variant - the very first MINI to do so. Fully-featured with plenty of options, the Countryman states a strong case.

Similarly, Comline's high-quality and value-for-money product range is equally desirable and trusted by our customers in over 40+ countries worldwide. With a broad offering for the Countryman forming part of this range, you can harness the business benefits of Comline parts on this not so mini, MINI.

MINI Countryman - 1.6-ltr Diesel (2016)
