

Model Feature

Seat Ibiza (4th Gen)

The Seat Ibiza has always been a sharp looking supermini but the fourth-generation offers that little something extra in the styling department. This is no real surprise when you learn that it was Lamborghini's former Head of Design, the fantastically named Luc Donckerwolke, who penned this particular model.

Sharing a platform with its VAG stablemates, the VW Polo and Audi A1, the Ibiza is SEAT's best-selling model and an increasingly credible rival for segment heavyweights like the Ford Fiesta & Vauxhall Corsa. The Ibiza is therefore a vehicle that should grab the attention of aftermarket businesses - there's money to be made from this supermini!

To that end, Comline offers a fully comprehensive range for the SEAT Ibiza, including an extensive list of parts from our Steering & Suspension offering. With Comline, quality is engineered into each and every part but the real advantage is the genuine, margin-enhancing value that Comline can deliver for your business.
