Issue 10023 – Comline Suspension Kits

Comline is pleased to announce that we will be superceding the old Comline part number and description for our Suspension Kits.

We are introducing a new part numbering system and description for our CCA (Track Control Arm Kit) range. The product will now be described as CSK (Suspension Kit) to enable our customers to easily recognise complete suspension kits and not just the control arm. Please see below the tables which outline all CCA references and descriptions that have now been superceded to the new CSK part numbering system with the new description "Suspension Kit".

In Range:

Comline Suspension Kits are a pre-defined kit and include all fitting kits.

Previous Comline Number	Previous Description	New Comline Number	New Description
CCA4000K	Control Arm Kit	CSK4000K	Suspension kit
CCA4006K	Control Arm Kit	CSK4006K	Suspension kit
CCA4010K	Control Arm Kit	CSK4010K	Suspension kit

Coming soon:
